## BLUE NITRILE DISPOSABLE UltraGlove® - POWDER FREE

Industrial grade disposable glove with micro textured grip and excellent chemical resistance. These gloves are powder free to avoid possible contamination or powdery residues. The soft and pliable glove also features a micro-roughened texture for a non-slip grip in wet and dry conditions. UltraGloves feature excellent protection against many common and specialty chemicals.

Nitrile gloves are more puncture and abrasion resistant than vinyl or latex, while offering superior resistance to animal fats, acids, and other caustic material.

- » High quality nitrile
- » No natural latex components
- » Ambidextrous
- » 4 mil thick
- » Powder free
- » Beaded, rolled cuff
- » Textured finish for better grip
- » Industrial grade
- » S, M, L, XL, 2XL

# UltraBoots™ HIGH PERFORMANCE POLYURETHANE BOOTS

## COWBOY CUT |

### KEEPS WARMTH IN |

Polyurethane insulates and remains flexible in cold temperatures helping keep feet warm and comfortable.

### FLEXIBLE |

Three flex points for greater range of motion in performing tasks throughout the day.

### ANKLE PROTECTION |

Built in cushion for ankle protection from low impacts.

### ULTIMATE COMFORT |

Thick, shock absorbent soles and premium form fitting insoles provide cushion to keep feet feeling refreshed longer.

### SLIP-FREE |

Heavy duty soles with deep and wide treads give better traction in areas with fats, proteins and liquids.

### QUALITY MATERIAL |

Polyurethane lasts 3x longer than PVC boots saving you money and time.

### PREMIUM PROTECTION |

Composite safety toe for foot protection meets ASTM standards and helps insulate for warmth while protecting your toes.

# COMFORT MEETS PERFORMANCE

## ONE PAIR OF UltraBoots™ LASTS 3x LONGER THAN PVC BOOTS

### SIMPLY SUPERIOR TO THE COMPETITION

- » Polyurethane material helps insulate against cold temperatures
- » Will not stiffen in cold temperatures
- » Self cleaning soles for better traction
- » Plush, ergonomic insoles provide superior foot support
- » Safety toe meets ASTM F2413-11 1/75 and C75 protective safety toe requirements

## FERMENTATION & DRYING ROOMS

### MAUTING KMZ FERMENTATION ROOM

Designed mostly for the first phase of fermentation of thermally non-processed meat products.

- » The first phase of fermentation, start of fermentation
- » Smoking by cold smoke
- » Maturing
- » Intensive drying

Operative temperature range is 18 ÷ 30 °C at regulated humidity in the range of 65 ÷ 95%. Standard dehumidifying output of the equipment is up to 3%/24 hours at the chamber temperature of 18°C and relative humidity of 75%.

Smoke generation can be carried out either in the wooden chip or friction smoke generator according to the client's requirement.

### MAUTING KMD DRYING ROOM

Designed for the second phase of fermentation of thermally non-processed products or drying of thermally processed products. They can be equipped with smoke generators for creation of smoke aroma.

- » For second phase of fermentation
- » Drying

Standard operative temperature range is 15 ÷ 22 °C at regulated humidity in the range of 65 ÷ 90%. Dehumidifying output of the equipment is 1-1,5% / 24 hours on the average according to the type of the product, casing and production technology related to the temperature of 15 °C and relative humidity of 70%. The Cross Flow system allows the dehumidification up to 2,5%/24 hours.

## FULLY AUTOMATIC DOUBLE CLIPPER CDC-A SERIES

The fully automated CDC-A Series Double Clipper combines performance, reliability and flexibility. The CDC-A Series Double Clippers are solidly built and efficient. Because of the two-hand release, the CDC-A Series offers the highest safety standards. CDC-A Series clippers are mechanically and electrically compatible with all commercially available stuffing machines. The mobile base enables easy adjustment of the clipper to the height of the stuffer.

### FEATURES:

- » The service intervals on board are controlled by a special CRM program
- » Intuitive user friendly controls
- » High quality stainless construction for durability and easy cleaning
- » Electronically controlled, operated pneumatically, easy maintenance, low cost
- » Quick change of up to 4 different clip types without requiring any modification
- » Large caliber range

WATCH VIDEO

## SEMI AUTOMATIC DOUBLE CLIPPER SERIES (B90, 800, 200)

The CDC series double clipper is a solidly built machine that promotes safe operation, high productivity and flexibility. The adjustable base of the machine makes it easy to connect with most standard stuffing machines. It enables manufacturers to provide new products quickly and easily and process existing products routinely and efficiently. The CDC will help you to save time and money.

### FEATURES:

- » High flexibility, large caliber range and simple operation
- » Built to last with stainless steel and service and hygiene friendly design
- » Pneumatically controlled and operated for easy maintenance and low cost
- » No matter how the CDC is configured - it does not require any electricity
- » Quick change of up to 4 different clip types without requiring any modification
- » Can be connected to all commercially available stuffing machines

WATCH VIDEO

## TABLETOP SINGLE & DOUBLE CLIPPERS

### SINGLE: CLIPSTAR SERIES

(200, 700, 800, 800 PACK, B90)

### DOUBLE: CDC (200, 800)

### EASY PLUS

CDC (200, 800, B90)

Select from a wide range of single and double tabletop Cliptechnik clippers to accommodate your product clipping needs. Safely and securely close all kinds of natural and artificial casings as well as all types of bags used in a modern sausage production. All clip machines - CDC- and Clip Star series - are prepared with up to four different clip dimensions and can be processed without exchanging machine parts.

## HIGH PERFORMANCE CLIPPERS MADE IN GERMANY

# MIXERS/GRINDERS, STUFFERS, BOWL CUTTERS, INJECTORS

## THOMPSON SERIES MIXERS/GRINDERS

A wide range of seamless, fully welded, heavy duty stainless steel mixers and grinders from 60 liter to 1,600 liter hopper capacity.

Increase your production yields and product quality consistency with Thompson Mixer/Grinders. Easy to clean and built to withstand harsh operating environments for long life.

### 3000 SERIES OPTIONS:

- » Footswitch
- » Connections for tandem (Gemini) production
- » Bone removal system
- » Safety interlocked discharge guard
- » Ingredients chute

### 4000 SERIES OPTIONS:

- » 8-5/8" (#66) grinding head
- » Variable speed drives
- » PLC programmable controls
- » Digital thermometer
- » Connections for tandem (Gemini) production
- » Pneumatic lid
- » CO<sup>2</sup> cooling
- » Bone removal system
- » Feedscrew, knife, and plate cart
- » Ingredients chute

## INJECT STAR® INJECTORS

- » Bone-in or boneless meat
- » Quick release needles
- » Synthetic conveyor belt
- » Suitable for beef, poultry
- » Hand pump outlet

## A FULL RANGE OF VACUUM STUFFERS FOR ALL TYPES OF PRODUCTION:

A wide range of seamless, fully welded, heavy duty stainless steel

- » Increased speed
- » Instantaneous stop and start precision
- » Exact weight portions
- » High quality, consistent products
- » Full color touch screen control panels

## AUTOMATIC HANGING LINE WITH LINKING SYSTEM

Optimize your sausage or snack stick production line.

## FATOSA BOWL CUTTERS

UltraSource offers a full line of USDA accepted stainless steel floor model bowl cutters with capacities ranging from 35 liters up to 325 liters for small to medium/ large size processing facilities. Manufactured from heavy duty stainless steel with a hygienic clean design and a smooth surface making cleaning effortless. Solid body construction and rubber feet minimize and absorb vibrations.

### C-75VV SPECIFICATIONS:

- » **CAPACITY** 75 liters
- » **KNIFE SPEED** 150 to 5,000 r.p.m.
- » **BOWL SPEED** 5/12/18 r.p.m.
- » **MIXING SPEED** 150 r.p.m.

### C-75VV STANDARD FEATURES:

- » Six knives
- » Emergency stop
- » Knife brake
- » Unloader
- » Electronic controls
- » Variable speed
- » Digital thermometer
- » Five preset cutting speeds
- » Three preset bowl speeds
- » Auto shut-off by time, temperature, or bowl revolutions

# KILL FLOOR, SAUSAGE PEELERS & PROCESSING EQUIPMENT

**NEW!**

## MSP 3008 SEMI-AUTO SAUSAGE PEELER

- » Fast and functional, adaptable to any work area
- » Easily disassembles for wash-down
- » Automated sausage traction
- » Adaptable for different diameters 15-34mm
- » No cutting marks

**NEW!**

## ASP 200 AUTO SAUSAGE PEELER

- » Vacuum pump included
- » Special blade for cutting without marking sausage
- » Product entry equipped with anti-burn air curtain
- » Easy height adjustment for sausage diameter between 15 and 34mm
- » Supervising window on and auto light for enclosure for peeled casing
- » Product water bin easily removable for washing

## CSDM BM 20S | SCALDS & DEHAIRS PIGS & GOATS FROM 25-500 LBS.

### FEATURES

- » Over sized bristle collection box
- » Two water outlets
- » Left/right on/off switches
- » Safety switch
- » Bristle flap (front side of machine)

### OPTIONAL FEATURES

- » Pneumatic ejector
- » Electronic control box

PERFECT COMBINATION TO INCREASE YIELD

## MAJA EQUIPMENT

UltraSource offers MAJA derinders, membrane skimmers, and flake ice machines. For almost 60 years, MAJA has been at the forefront of high quality, innovative processing equipment for the protein market. UltraSource and MAJA: an unbeatable combination for your success.

# A FULL LINE OF LABELING SOLUTIONS

PACKAGING + PROCESSING EQUIPMENT

## MATRIX™ CROSSWEB PACKAGE TOP LABELER

Label placement is critical when it is the only thing on your package. UltraSource's PT Package Top Labeler reduces your labor cost and provides a rapid return on investment over conventional hand labeling. Angled surfaces and rounded corners facilitate better water runoff for wash down conditions, and exceed NEMA 4 ratings. Patented height adjustable tamp unit speeds tamp time and improves placement accuracy to ±0.5mm.

- » Conforms to most product contours
- » Optional servo motors for very high speed applications
- » Designed for ease of maintenance and inspection
- » Perfect for placement of promotional labels on pre-printed film

PROUDLY MADE BY  
**UltraSource**  
IN THE USA

## MATRIX™ CROSSWEB PACKAGE BOTTOM LABELER

All the great features of our Matrix labeling system in a bottom mount, knee free design.

- » Ideal for placement of ingredients, UPC, and nutritional information
- » Conforms to most product contours
- » Designed for wash down environments

## POSI 200 TOP & BOTTOM AUTOMATIC PACKAGING LABELING SYSTEM

Our Posi 200 affixes pressure sensitive labels to the top and/or bottom of flexible or rigid packages, trays, or boxes, and is well suited for in line labeling applications fed directly from food packaging machines.

- » Constructed primarily of stainless steel and Delrin plastic
- » Small footprint saves space and wheels provide portability
- » Built to NEMA 4 specifications for wash down
- » Quick release conveyor belts for ease of cleaning
- » Bottom labeler head slide out feature for easy label threading

## MATRIX™ CROSSWEB FILM LABELER

High speed accuracy for difficult film labeling applications. UltraSource's Matrix crossweb automatic film labeler couples state-of-the-art technology to a conventional mounting solution. Top mounted design features a wide range of adjustments to suit multiple applications.

- » High speed accuracy for applying labels within constraints of pre-printed film
- » Compact design for space efficiency
- » Conforms labels to contours or multiple surface heights
- » Touch screen controls

# THE MATRIX™ ULTRA LABELER

## MATRIX ULTRA LABELER ADVANTAGES

- » 40 to 60% savings over conventional mounted labeling systems
- » Portability for use on multiple machines and applications
- » Small footprint provides functionality in limited and low clearance environments
- » Patented

### ADDITIONAL FEATURES

- » Ideal for labeling direct to the film on a rollstock machine
- » User friendly touch screen controls
- » Designed and built by UltraSource in the USA
- » NEMA 4 wash down rated for dependability and hygiene

# WEIGH PRICE LABELING EQUIPMENT

## ESPERA® ES 5900

### SEMI AUTOMATIC WEIGH PRICE LABELING

The compact solution in price labeling. The semi automatic price labeling system requires small floor space and is available as a standalone solution for manual product feed as well as for integrating into existing production lines via automatic product feed. The 5911 supports **up to 65 packages per minute** and is easy to operate via a color touch-display.

#### FEATURES

- » Up to 2 printers Top/1 Bottom
- » Compact and space-saving design
- » No external compressed air

WATCH VIDEO »

## ESPERA® ES 6000

### SEMI AUTOMATIC WEIGH LABELER FOR CASES & HEAVY PRODUCTS

This outstanding labeling solution weighs and labels products up to 176 lbs (80 kg). This machine can be easily integrated into existing lines or act as a standalone unit. It can be equipped with up to two printers that can label the top and/or any side of the product (except the bottom).

#### FEATURES

- » Hygienic stainless steel design and removable conveyor belts for easy cleaning
- » No external compressed air required
- » Fast change of label reels by servo device
- » Easy replacement of thermal print heads without the need for service
- » Online remote service included at no additional charge
- » Full network integration possible
